CORROSION PROTECTION/RUSTPROOFING OF VEHICLES & EQUIPMENT

Practice:

1.0 INTRODUCTION

Corrosion protection/rustproofing is to reduce the overall maintenance cost and to prolong the life of vehicles.

2.0 APPLICATION OF RUSTPROOFING TO VEHICLES AND EQUIPMENT

2.1 Newly Purchased Class 1, 2, 3, 4, 5 and 6 Vehicles and Bodies

These units will be rustproofed with an approved product before delivery of such units to the user.

Refurbished and transferred units will be rustproofed with an approved product after completing final painting.

2.2 Newly Purchased Mobile Compressors, Chippers, Utility and Flat-Bed Trailers in Class and 9

Rustproofing or galvanizing of such units will be arranged for at time of purchase by Fleet Technical Services.

3.0 PRODUCT APPROVAL

Contact Fleet Services for approved products and dealers.
